Race and Ethnicity Defined - CliffsNotes

The Confusing World of Race and Ethnicity. When it comes to race and ethnicity, you definitely can't draw a line in the sand between these two terms. The line between your race and your ethnicity can definitely become blurred. This is largely due to the fact that race and ethnicity are social constructs rather than based on any science.

Examples of Race and Ethnicity

A race is something that's much harder to pin down. Racial groups tend to be divided by similar physical characteristics like skin color, head shape, and so on. Unlike ethnicity, which is tied to a particular people or place, race is imprecise. And, to be frank, there isn't any real scientific basis for dividing people into races.

RACE - The Power of an Illusion . What Is Race | PBS

The term "Caucasian race" was coined in 1785 by Christoph Meiners, a German philosopher. Meiners recognized two races — the Caucasian or beautiful, and the Mongolian or ugly. According to his classification, the caucasian race encompassed the native populations of Europe, the aboriginal inhabitants of West Asia, the autochthones of Northern Africa, and Indians.

race | Definition, Ideologies, Constructions, & Facts ...

Stated simply, race is the word used to describe the physical characteristics of a person. These characteristics can include everything from skin color to eye color and facial structure to hair color. This term is physiological in nature and refers to distinct populations within the larger species.

Race to the Bottom Definition

Critical race theory (CRT), the view that the law and legal institutions are inherently racist and that race itself, instead of being biologically grounded and natural, is a socially constructed concept that is used by white people to further their economic and political interests at the expense of people of colour. According to critical race theory (CRT), racial inequality emerges from the ...

Race | Definition of Race by Merriam-Webster

The traditional definition of race and ethnicity is related to biological and sociological factors respectively. Race refers to a person's physical characteristics, such as bone structure and skin, hair, or eye color.Ethnicity, however, refers to cultural factors, including nationality, regional culture, ancestry, and language.. An example of race is brown, white, or black skin (all from ...

critical race theory | Definition & Facts | Britannica

Race Trumps Ethnicity . New York University sociology professor Dalton Conley spoke to PBS about the difference between race and ethnicity for the program "Race: The Power of an Illusion": "The fundamental difference is that race is socially imposed and hierarchical. There is an inequality built into the system.

Ethnicity vs Race - Difference and Comparison | Diffen

Race (biology), an informal taxonomic classification within a species, generally within a sub-species Race (human categorization), classification of humans into groups based on physical traits, and/or social relations Racing, a competition of speed: Rapid movement. The Race (yachting race) Mill race, millrace, or millrun, the current of water that turns a water wheel, or the channel (sluice ...

What Is Race Who Are

Race, the idea that the human species is divided into distinct groups on the basis of inherited physical and behavioral differences. Genetic studies in the late 20th century refuted the existence of biogenetically distinct races, and scholars now argue that 'races' are cultural interventions stemming from colonialism.

RACE | meaning in the Cambridge English Dictionary

Both race, which describes physical characteristics, and ethnicity, which encompasses cultural traditions such as language and religion, play pivotal and socially significant roles in people's lives.

Understanding the Difference Between Race and Ethnicity

The data on race were derived from answers to the question on race that was asked of individuals in the United States. The Census Bureau collects racial data in accordance with guidelines provided by the U.S. Office of Management and Budget (OMB), and these data are based on self-identification.

Caucasian vs. White - Difference and Comparison | Diffen

Rapid amplification of cDNA ends (RACE) is a technique used in molecular biology to obtain the full length sequence of an RNA transcript found within a cell. RACE results in the production of a cDNA copy of the RNA sequence of interest, produced through reverse transcription, followed by PCR amplification of the cDNA copies (see RT-PCR).The amplified cDNA copies are then sequenced and, if long ...

Race - Wikipedia

The term race refers to groups of people who have differences and similarities in biological traits deemed by society to be socially significant, meaning that people treat other people differently because of them.For instance, while differences and similarities in eye color have not been treated as socially significant, differences and similarities in skin color have.
